

California Budget & Policy Center

Independent Analysis. Shared Prosperity.

Sponsors of the **Policy Perspectives Speakers Series** support the opportunity for all Californians to participate fully in the state's economic, social, and political future.

The Policy Perspectives Speakers Series provides expert analysis and insights on key policy questions facing California. Through events held across the state and related web-based trainings and convenings, the Series provides access and information to engage in vital state and local budget and policy debates.

Event speakers and panelists will discuss the latest research and analysis, share different viewpoints, and provide a forum for open and timely dialogue on critical policy questions, such as:

What types of investments expand opportunities for children and families? What can be done to improve access to quality, affordable housing? What reforms can be made to reduce California's overreliance on incarceration?

Your support for the Policy Perspectives Speakers Series empowers advocates, state and local decision-makers, researchers, funders, and other leaders with the information they need to make smart policy choices and the right kinds of public investments today.

To learn more about sponsoring Budget Center events, contact Janis Yee, Development Manager, at 916.444.0500 or jyee@calbudgetcenter.org.
