

## California Women's Well-Being Index Bachelor's Degree Fact Sheet

The California Women's Well-Being Index provides a comprehensive, composite measure of how women are faring in each of the state's 58 counties. The Index encompasses five "dimensions" – Health, Personal Safety, Employment & Earnings, Economic Security, and Political Empowerment – each of which is made up of six indicators. This fact sheet shows statewide data by race and ethnicity for the Bachelor's Degree Indicator, as well as the value and rank for all 58 counties.

### Percentage of Women With at Least a Bachelor's Degree, 2018-2022

**Note:** Data are for individuals age 25 and over. The ethnicity category ("Latinx") and the race categories are mutually exclusive. Individuals who identify as Latinx are included only in that category and are not reflected in any of the race categories.
