

California Women's Well-Being Index Life Expectancy Fact Sheet

The California Women's Well-Being Index provides a comprehensive, composite measure of how women are faring in each of the state's 58 counties. The Index encompasses five "dimensions" – Health, Personal Safety, Employment & Earnings, Economic Security, and Political Empowerment – each of which is made up of six indicators. This fact sheet shows the value and rank for all 58 counties for the Life Expectancy Indicator (see reverse side).

Life Expectancy at Birth for Females, 2019

Note: The ethnicity category ("Latinx") and the race categories are mutually exclusive. Individuals who identify as Latinx are included only in that category and are not reflected in any of the race categories.
