

California Women's Well-Being Index

Sexual Assault Fact Sheet

The California Women's Well-Being Index provides a comprehensive, composite measure of how women are faring in each of the state's 58 counties. The Index encompasses five "dimensions" – Health, Personal Safety, Employment & Earnings, Economic Security, and Political Empowerment – each of which is made up of six indicators. This fact sheet shows the value and rank for all 58 counties for the Sexual Assault Indicator (see reverse side). Data by race and ethnicity are not available.

Average Annual Sexual Assaults Per 100,000 Females, 2018-2022

Note: The sexual assault rate includes rape and attempted rape and are not restricted to assaults against women. These data only reflect the number of reported crimes.

Note: The sexual assault rate includes rape and attempted rape and are not restricted to assaults against women. These data only reflect the number of reported crimes. Estimates for certain counties were deemed unreliable due to data limitations. The following counties have been grouped to improve the reliability of the data for this indicator: 1) Alpine and Tuolumne; 2) Modoc and Siskiyou; and 3) Plumas and Sierra.
