

California Women's Well-Being Index Unemployment Fact Sheet

The California Women's Well-Being Index provides a comprehensive, composite measure of how women are faring in each of the state's 58 counties. The Index encompasses five "dimensions" – Health, Personal Safety, Employment & Earnings, Economic Security, and Political Empowerment – each of which is made up of six indicators. This fact sheet shows statewide data by race and ethnicity for the Unemployment Indicator, as well as the value and rank for all 58 counties.

Female Unemployment Rate, 2018-2022

Note: Data are for the civilian population age 16 and over. The ethnicity category ("Latinx") and the race categories are mutually exclusive. Individuals who identify as Latinx are included only in that category and are not reflected in any of the race categories.
