CalWORKs Grants Provide Less Support Than in 2006 Even As Rents for Low-Cost Housing Have Risen

* Rents are estimated based on the compound annual growth rate between 2011 and 2014.

Note: CalWORKs grant is for a family of three in "high-cost" counties. The Governor's proposed budget assumes that there will be no increase to CalWORKs grants in the 2016-17 fiscal year, which begins July 1. Rent excludes utilities and reflects all unit sizes.

Governor’s Proposed Budget Misses Opportunity to Make Critical Investments in Families and Communities

Governor’s Allocation of $7.3 Billion in Discretionary General Fund Resources in 2016-17

- Optional Increases to State Reserves: $3.1 B
- Managed Care Organization Tax Proceeds**: $1.1 B
- Funding for County Jails, State Buildings, and Maintenance of State Facilities: $2.3 B
- Other*: $0.8 B

Almost three-quarters of discretionary resources are taken off the table, reducing funding available to invest in California’s families and communities.

* Includes funds set aside for state worker salary increases, as well as increases for the CSU and UC, California Department of Corrections and Rehabilitation, courts, SSI/SSP grants, and the Department of Developmental Services.

** Considered discretionary because these proceeds are not proposed for any particular purpose.

Note: Excludes constitutionally required spending, reserves, and debt payments; added costs to maintain existing policies; and some smaller spending proposals.
