The 2018-19 May Revision and This Year's Budget Debate

*BRIEFING AT MAKING ENDS MEET: POLICY
PROSPECTS THIS YEAR AND BEYOND FOR
PROMOTING ECONOMIC SECURITY IN
CALIFORNIA*

MAY 22, 2018

calbudgetcenter.org

The **Policy Perspective Speakers Series** features in-person and online events that provide expert analysis and insights on key policy questions facing California.

Part I

The Governor's 2018-19 May Revision: Context and Top Lines

From the Budget Center's *First Look*, released last week:

May Revision "**makes several improvements** over the January proposal. But, especially in light of the significant discretionary funds available, it "**leaves much room for additional investments** in individuals, families, and communities across California."

Putting the Governor's 2018-19 May Revision in Context

Several major issues/considerations:

- State revenues coming in even stronger than had been projected in January
- A range of vital services and supports still operating at diminished levels due to cuts made during and after the Great Recession
- California State University (CSU) and University of California (UC) still feeling impact of many years of state disinvestment
- Economic hardship high in many parts of the state

Putting the Governor's 2018-19 May Revision in Context (cont.)

Other considerations:

- Uncertainty of long-term impact of the federal tax law enacted last December
- Continued prospect of cuts and other changes at the federal level (though perhaps unlikely before November election)
- Anticipated statewide ballot measures with potentially significant implications (housing bond, gas tax repeal, realtors' Proposition 13 initiative, e.g.)

The Governor's May Revision: Top Lines

- Forecasts revenues that are about \$8 billion higher (over three-year period) than had been projected in January
- Places a heavy emphasis on building up reserves, including a sizeable *discretionary* deposit in the state's rainy day fund
- Also prioritizes some *one-time* spending, such as infrastructure, addressing homelessness, and mental health services
- Makes no new investments in some critical public supports (CalWORKs, SSI/SSP, subsidized child care, affordable housing)

Part II

Key Components of the Governor's May Revision

May Revision reflects an improved fiscal outlook

General Fund revenues are expected to be considerably higher than projected in January.

The state's strong revenues mean that there is more than \$10 billion in discretionary resources available for 2018-19.

May Revision maintains Governor's proposal to bring state rainy day fund to its maximum level.

The Governor proposes depositing \$4.4 billion in the rainy day fund. Of this amount, \$1.75 billion is constitutionally required, while \$2.6 billion is discretionary (beyond what Prop. 2 requires).

Under the May Revision, total reserves would reach \$17 billion by the end of 2018-19.

This includes \$13.8 billion in the rainy day fund and another \$3.2 billion that the Governor proposes to leave in the state's discretionary reserve fund.

Governor's May Revision proposes to strengthen the California Earned Income Tax Credit (CalEITC).

The CalEITC is a refundable state tax credit that helps families who earn very little from their jobs to better afford basic necessities.

May Revision Would Strengthen CalEITC

The Governor's revised budget:

- Raises the income limit to qualify for the CalEITC
- Changes the credit's age requirements so that young adults and seniors who are currently ineligible for the credit can qualify for it
- Does not extend the CalEITC to immigrant workers who are currently excluded
- Does not provide additional funds to promote the credit or to expand free tax preparation services to low-income families and individuals

Governor's May Revision calls for \$2 billion in one-time infrastructure investments to address deferred maintenance.

The Governor Prioritizes One-Time Infrastructure Investments

Among the \$2 billion in infrastructure spending are:

- \$630 million for improvements to state office buildings
- \$343.5 million for higher education systems (CSU, UC, California Community Colleges)
- \$174 million for state corrections facilities
- \$100 million each for: flood control and levee improvements; courts; state hospitals; state park facilities

May Revision proposes new funding to address homelessness.

California has an estimated 135,000 homeless residents (January 2017), accounting for nearly one-quarter of the total US homeless population.

One-Time Investments as Well as Ongoing Spending Aim to Address Homelessness

The Governor's May Revision includes:

- \$250 million for one-time Emergency Homeless Aid Block Grants
- Increased funding for two CalWORKs programs that assist homeless families: the Housing Support Program and the Homeless Assistance Program
- One-time funding for: a pilot program to prevent/address homelessness among seniors (\$15 million over three years); \$10 million for domestic violence shelter services; \$1 million for homeless youth shelters.

Proposals to Address Homelessness (cont.)

The Governor's May Revision also:

- Makes a one-time \$50 million allocation for counties to provide services to homeless individuals with mental illness
- Proposes that the No Place Like Home program (funding for which currently faces a legal challenge) be placed on the November 2018 statewide ballot for voter validation

While it boosts spending to address homelessness, the May Revision overall falls short of Legislature's housing proposals.

May Revision proposes no new funding to address needs of immigrants.

California has the largest share of immigrants of any state. In addition, immigrants account for one-third of our state's workforce.

May Revision differs from some key Legislative proposals on supporting immigrants.

Governor does not extend CalEITC to immigrant workers who file taxes with ITINs (as noted earlier) nor does he expand Medi-Cal eligibility to undocumented adults.

Increased revenues boost the minimum funding level for K-12 schools and community colleges.

May Revision assumes a 2018-19 Prop. 98 funding level of \$78.4 billion. This is \$68 million above the January proposal and \$2.8 billion above what is now assumed for the *current* (2017-18) budget year.

Like the January proposal, the May Revision provides funding to support full implementation of state's K-12 funding formula – the Local Control Funding Formula (LCFF).

Proposals regarding California Community Colleges (CCCs) are key component of May Revision.

Governor calls for adjustments to proposed new funding formula for CCCs and offers details on online community college proposal.

May Revision Makes Adjustments to Proposed CCC Funding Formula

In January, the Governor proposed a new formula for allocating CCC “general-apportionment” funding. The May Revision adjusts this formula by providing each district with:

- **A 60% base grant** (was 50%) based on three-year rolling average of per-Full-Time-Equivalent Student (FTES) funding rate.
- **A 20% supplemental grant** (was 25%) based on the number of: College Promise Grant fee-waiver recipients over age 25; certain undocumented students qualifying for resident tuition; and Pell grant recipients.
- **A 20% student success incentive grant** (was 25%) based on outcomes for disadvantaged students; transfers to four-year institutions; and other factors.

Governor's revised budget maintains modest increases for CSU and UC.

The Administration's proposed funding levels are less than what CSU and UC had requested. Also, should either system opt to increase tuition, the Governor calls for reducing their allocations in proportion with any resulting increases in state aid.

May Revision maintains proposed CalWORKs home visiting pilot, but does not expand eligibility.

Proposed initiative would serve first-time CalWORKs parents under the age of 25. Some advocates had sought changing this age cap; the average CalWORKs household is headed by a 34-year-old.

Nearly \$160 Million Would Go Toward the Home Visiting Pilot

- Revised budget continues proposal to provide \$158.5 million in one-time TANF funds for three-year pilot initiative.
- The voluntary program would provide up to 24 months of home visiting for first-time CalWORKs parents who are pregnant or have a child under age 2.
- A substantial base of research shows that home visiting programs are an effective investment in improving outcomes for families and children.

May Revision includes no funding to increase subsidized child care slots.

Despite recent incremental increases in the state's child care and development system, California still provides about 67,000 fewer subsidized slots than prior to the Great Recession.

Revised budget does not reflect child care funding included in recent federal spending legislation.

California is expected to receive more than \$230 million in federal child care funds, but the Administration does not allocate any of this in the 2018-19 state budget.

May Revision makes no new investments in CalWORKs or in basic income support for seniors and people with disabilities (SSI/SSP).

Governor makes no major changes on state health policy, instead maintaining existing commitments.

May Revision does not reflect legislative proposals to expand coverage options for undocumented immigrants and boost affordability of coverage.

Revised budget reflects modest decline in incarceration.

Governor projects the number of incarcerated adults will drop by 2.5% in 2018-19 due to recent reforms. Administration expects to be able to end use of out-of-state prison facilities by early 2019.

Part III Issues to Watch

Key Questions Likely to Shape the Final Weeks of the Budget Debate

- Where will the final budget agreement land with regard to projected revenues, given the differing estimates from the Administration and the Legislative Analyst's Office?
- How will the Legislature seek to further strengthen the California Earned Income Tax Credit (CalEITC)?
- Will the Legislature advance a budget package that includes significant funds to promote housing affordability?
- Will the Legislature agree to the Governor's proposed change to the annual "certification" process for the final Prop. 98 (K-14) funding level?

Key Questions Likely to Shape the Final Weeks of the Budget Debate (cont.)

- Will the Legislature's budget proposal include increased state dollars for subsidized child care? And will the Legislature push to include significant new *federal* child care funds as part of state budget package?
- Will Legislature seek increased funding and other steps to boost support for CalWORKs and SSI/SSP?
- Will the Legislature advance the proposal — from the Assembly — to add \$1 billion in health care spending to expand Medi-Cal coverage to undocumented young adult immigrants and offer premium subsidies for middle-income households?

What Are Families' Basic Expenses?

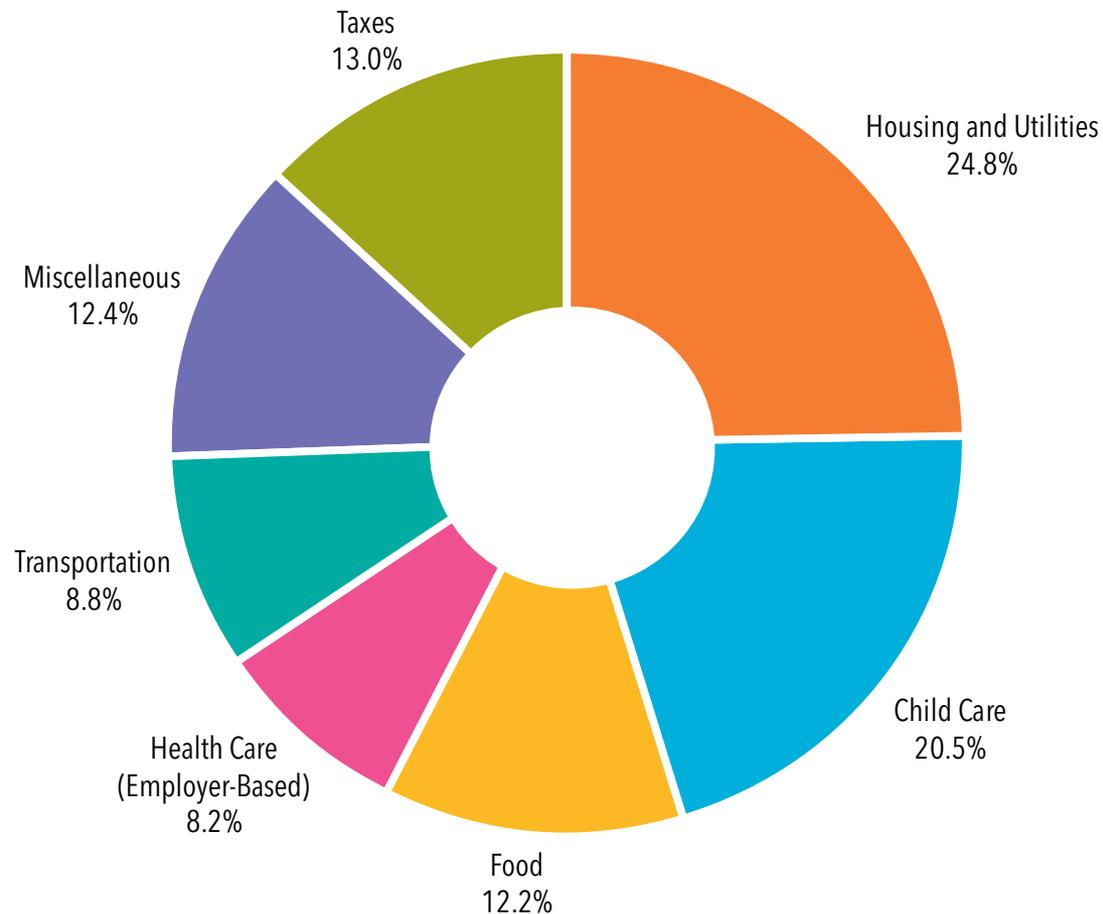

Housing Is the Largest Basic Expense Across Different Types of Households

Child care is a close second for families with children.

On Average, Nearly Half of a Two-Working-Parent Family Budget in California Pays for Housing and Child Care

Statewide Average Annual Basic Family Budget for a Two-Working-Parent Family = \$75,952

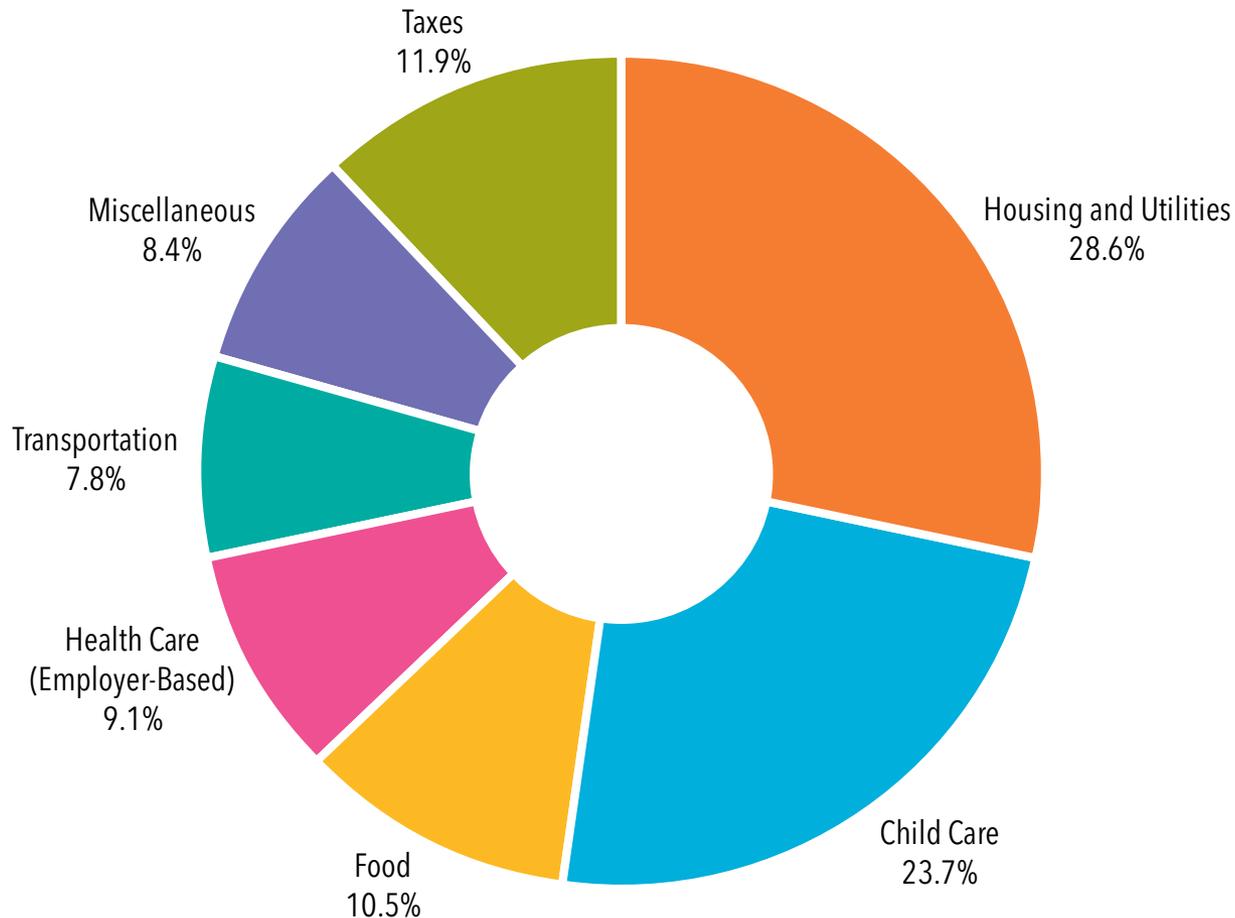

Note: Statewide average family budget calculated by averaging all county family budgets, weighted by county population.

Source: Budget Center *Making Ends Meet 2017* analysis

More Than Half of the Average Single-Parent Family Budget in California Pays for Housing and Child Care

Statewide Average Annual Basic Family Budget for a Single-Parent Family = \$65,865

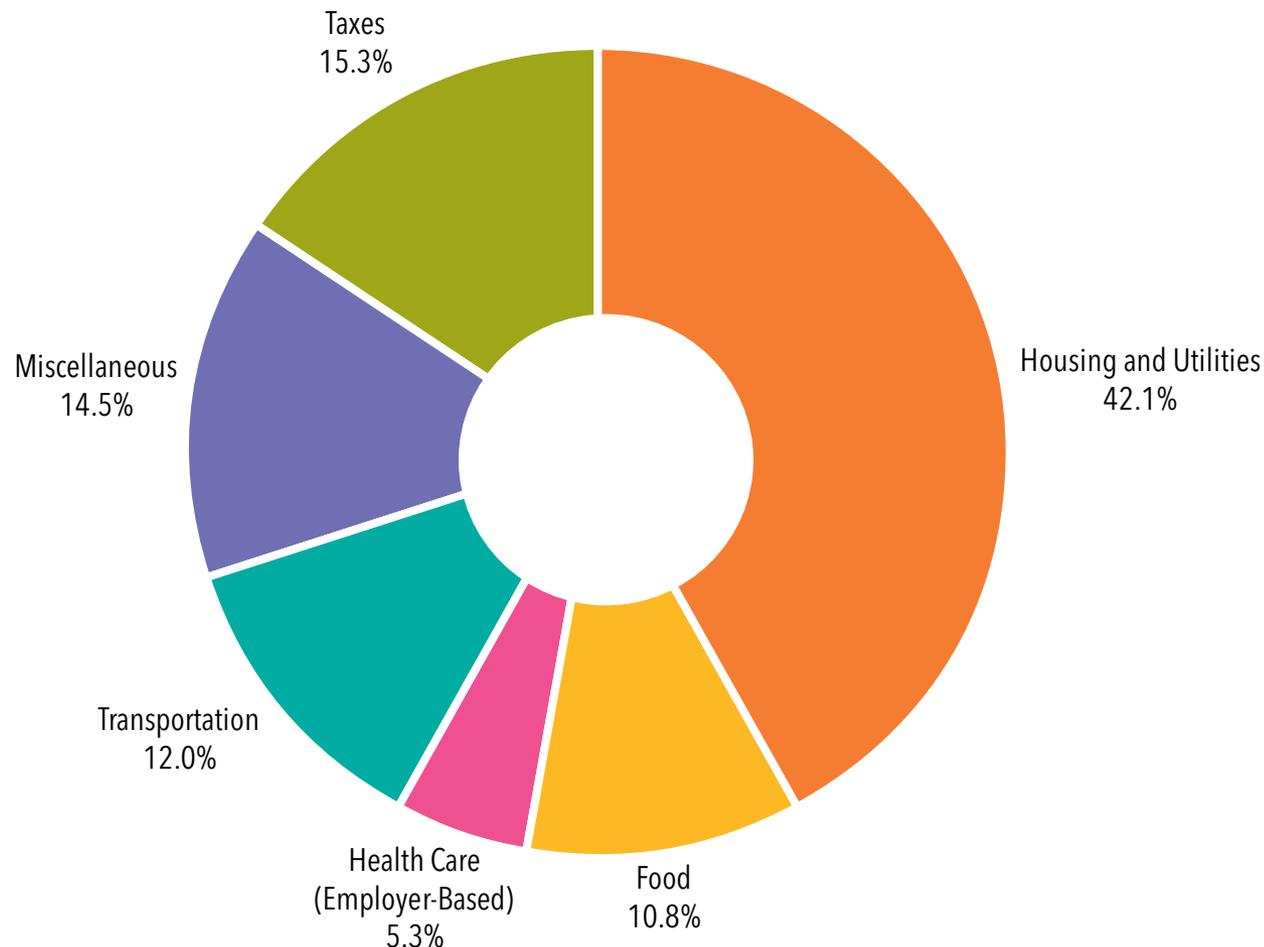

Note: Statewide average family budget calculated by averaging all county family budgets, weighted by county population.
Source: Budget Center *Making Ends Meet* 2017 analysis

On Average, Housing Costs Make Up More Than \$4 in \$10 of a Single-Adult Budget in California

Statewide Average Annual Basic Family Budget for a Single Adult = \$29,824

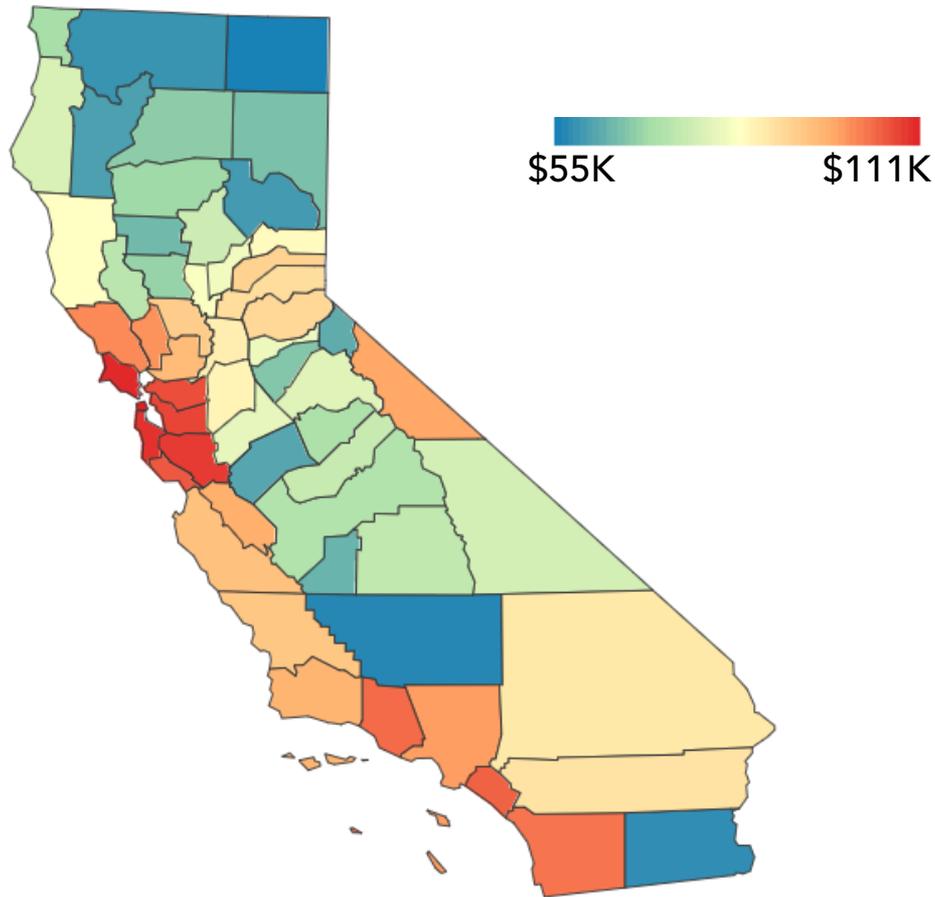

Note: Statewide average family budget calculated by averaging all county family budgets, weighted by county population.

The Basic Cost to Support a Family Varies Across California

Annual Basic Family Budget for a Two-Working-Parent Family With Two Children, 2017

Source: Budget Center *Making Ends Meet* 2017 analysis

The Costs of Basic Needs for Families With Children Vary Across Counties

Monthly Basic Family Budget for a Two-Working Parent Family With Two Children

	San Francisco County	Fresno County
Housing and Utilities	\$3,018	\$997
Food	\$773	\$773
Child Care	\$1,874	\$1,116
Health Care (Employer-Based)	\$638	\$540
Transportation	\$624	\$397
Miscellaneous	\$787	\$787
Taxes	\$1,535	\$519
MONTHLY TOTAL	\$9,249	\$5,018
ANNUAL TOTAL	\$110,984	\$60,214

Note: These budgets represent the total income required to cover a family's basic needs through earnings only, without government supports. Families are assumed to have two children, one preschool-aged and one school-aged. Amounts correspond to calendar year 2017. Numbers may not sum due to rounding.

Source: Budget Center *Making Ends Meet* 2017 analysis

The Costs of Basic Needs for Single Adults Vary Across Counties

Monthly Basic Family Budget for a Single Adult Household

	San Francisco County	Fresno County
Housing and Utilities	\$1,915	\$670
Food	\$268	\$268
Child Care	\$0	\$0
Health Care (Employer-Based)	\$162	\$137
Transportation	\$334	\$213
Miscellaneous	\$361	\$361
Taxes	\$667	\$249
MONTHLY TOTAL	\$3,707	\$1,898
ANNUAL TOTAL	\$44,481	\$22,776

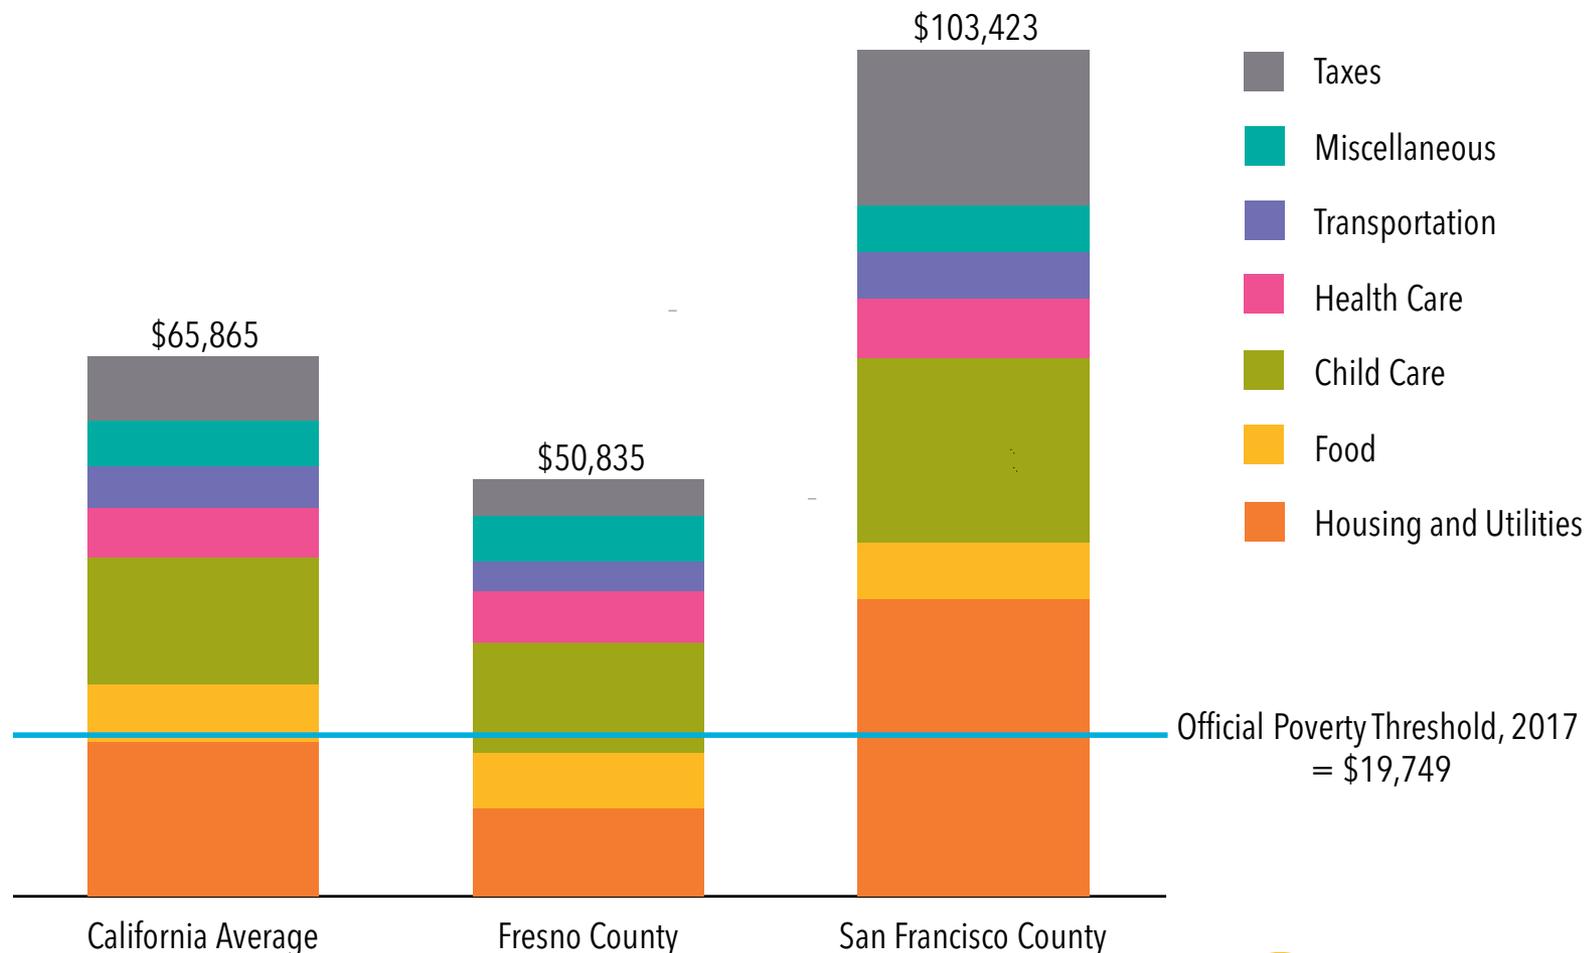

Note: These budgets represent the total income required to cover a family's basic needs through earnings only, without government supports. Amounts correspond to calendar year 2017. Numbers may not sum due to rounding.

Source: Budget Center *Making Ends Meet* 2017 analysis.

Official Poverty Thresholds Are Much Less Than the Basic Cost of Living for Families in California

Annual Basic Family Budget for a Single-Parent Family With Two Children, 2017

Note: Assumes one preschool-age and one school-age child and a single parent working full-time.

Public Supports Help Families Meet Basic Needs

But they don't go as far in high-cost areas.

Where Cost of Living Is Low, Public Supports Substantially Help Single-Parent Families Meet Basic Needs

Single-Parent Family Income With Addition of Key Public Supports, Fresno County

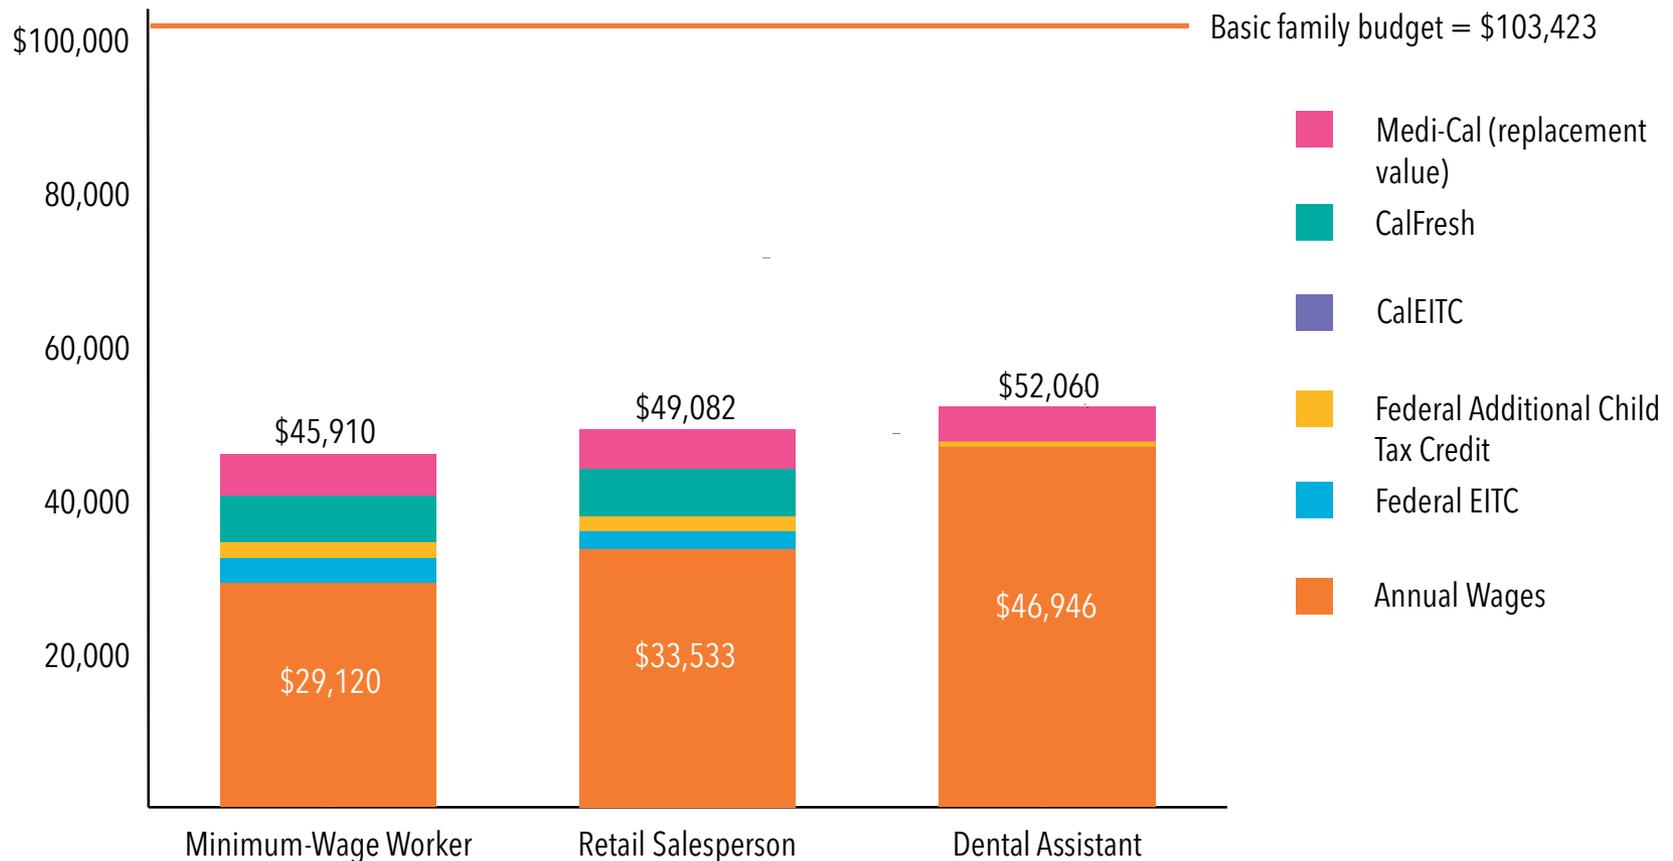

Note: No bar indicates ineligibility for that public support. Medi-Cal is free or reduced-cost health insurance. Medi-Cal value represented as employee cost for employer-based health insurance and out-of-pocket medical expenses.

Source: Budget Center *Making Ends Meet* 2017 analysis

Where Cost of Living Is High, Single-Parent Families Face Inadequate Income Even With Public Supports

Single-Parent Family Income With Addition of Key Public Supports, San Francisco County

Note: No bar indicates ineligibility for that public support. Medi-Cal is free or reduced-cost health insurance. Medi-Cal value represented as employee cost for employer-based health insurance and out-of-pocket medical expenses.

Source: Budget Center *Making Ends Meet* 2017 analysis

Policy Choices Can Make a Difference

There are opportunities this year and beyond to address housing affordability, child care costs, and the needs of immigrants.

Policies to Help Families Make Ends Meet

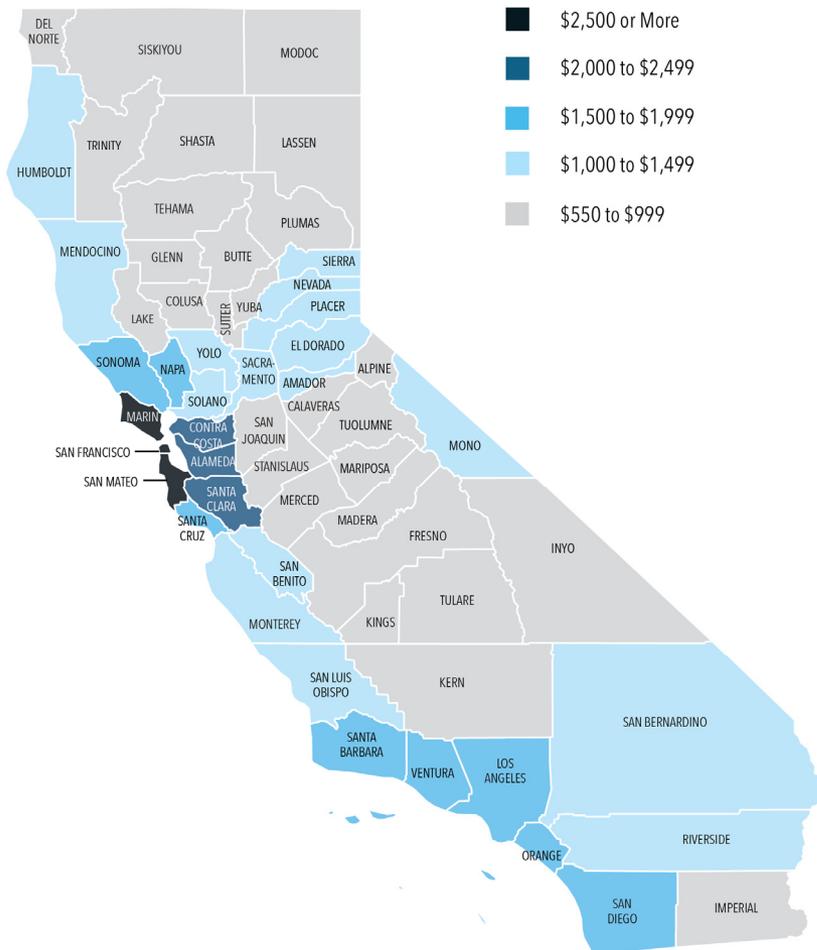

- **Reduce the cost of basic needs** – increase access to affordable housing, food assistance, child care subsidies, public health insurance.
- **Increase families' incomes** – increase the minimum wage, increase the size and coverage of the CalEITC, increase access to effective workforce development, reduce fines and fees.
- **Account for the cost of living** when identifying which families need support and how much support they need.

Rents Are Highest in California's Coastal Urban Areas

The CalEITC, Together With Federal Credits, Significantly Boosts the Incomes of Working Families With Children

Increase in Income From Tax Credits for Workers Qualifying for the Maximum CalEITC, 2017

Source: Budget Center analysis of the California and federal Earned Income Tax Credits (EITCs) and the federal Child Tax Credit

The Bottom Line

- Families and individuals in California face high costs to meet their basic needs.
- While housing costs have been rising, earnings have not kept pace for many workers.
- Public policy choices help determine whether families and individuals have the resources and support they need to make ends meet.

The screenshot shows the website's header with the logo and navigation menu. The main content area features a report titled "Making Ends Meet: How Much Does It Cost to Support a Family in California?". Below the title is a list of counties and their corresponding costs to support a two-working-parent family. A map of California is shown with counties color-coded by cost. To the right of the map is a table showing the annual total cost for a two-working-parent family in San Mateo County, broken down by category.

REPORT INTERACTIVE

Making Ends Meet: How Much Does It Cost to Support a Family in California?

Work, Income & Poverty · December 2017 · By Sara Kimberlin and Amy Rose

Making Ends Meet shines a light on the economic challenges faced by many Californians by showing the cost of supporting a family or a single individual in different parts of the state. This analysis presents basic family budgets for each of California's 58 counties for four types of households: a single adult, a single parent family, a two parent family with one parent working, and a two working parent family. (All family types except single adult are assumed to have one preschool-aged child and one school-aged child.) These family budgets estimate the amount of income that households would need to cover basic expenses through earnings only, without publicly funded benefits or supports. [Read the *Making Ends Meet* report, including methodology details.](#)

What does it cost to make ends meet in your county?

California	\$75,952
