Progress for County Safety-Net Programs

• There is a trend toward expanding access to the undocumented: Sacramento, Contra Costa, Monterey, and 35 rural counties in CMSP expanded their eligibility, including offering a limited benefit to include the undocumented. Fresno, after suing to not serve the undocumented, secured a program to fill a gap in specialty care for the undocumented.

• Some counties are enhancing their safety-net in a smarter way, with programs like My Health LA and Healthy SF.

• All of these efforts are bridges to a statewide solution.
